FOR IMMEDIATE RELEASE

Local Air Race Team *McDonald Racer #37* Presents T-6 Race Aircraft at TAC Air Sponsored Aviation Fire Safety Event

Greenwood Village, Colo., November 9, 2010 – The McDonald Air Race Team, a T-6 Gold Class National Air Race competitor based out of Centennial Airport, plans to present at TAC Air's upcoming Fire Safety Event on Thursday, November 11th, 2010 from 12:00p.m. - 2:30p.m.

TAC Air is a Centennial Airport fixed base operator (FBO) providing services including hangar accommodations, car rental, conference facility options, a pilot lounge, aircraft maintenance, WSI flight planning and de-icing type I & IV, among other aviation services.

TAC Air will be sponsoring the informal Aviation Fire Safety Event with the goal of educating local fire department members on the different ways to access a pilot following a fire-related crash landing. Given the unique nature of each aircraft, pilots and mechanics of aircrafts such as a Cessna 152, a T-6 Warbird, a Citation Jet, a Falcon Jet and a Hawker Helicopter will be onsite to present entry techniques for each type of aircraft in a fire emergency.

The McDonald Racer #37 Air Race Team, sponsored by TAC Air at the National Championship Air Races, will participate in the upcoming Aviation Fire Safety Event. Race pilot John Zayac will present the T-6 Warbird, outlining vital knowledge of the ways to most efficiently and safely access a pilot in the event of a fire related crash landing.
