**CENTENNIAL** – John Zayac, owner of IBG Business Services Inc., competed in the T-6 Gold Class National Championship Reno Air Races in Nevada from Sept. 15-19.

Zayac, pilot of McDonald Racer No. 37, competes annually in the National Air Race Championships, which are widely recognized as the “World’s Fastest Motor Sport.”

As an experienced pilot, licensed for more than 20 years, he has competed in the annual air races for the past 10 years as one of the top T-6 race pilots

in the world. After winning first place in the T-6 Bronze Class in 2003, he’s advanced through the T-6 Silver Class and currently races in the highly competitive T-6 Gold Class.

Regarding the team’s 2010 air race goals, Zayac said, “Our three major goals for 2010 Reno Air Races are to promote children interested in aviation, break and maintain the T-6 air racing speed record of 244.523 mph, and to win first place in the T-6 Gold.” The McDonald Racer Crew is a unique team comprised of expert mechanics, skilled pilots, race strategy engineers, photographers, business profes-

sionals, and more. Although the crewmembers are as diverse as they come, they all share one definitive passion, T-6 Air Racing at the National Championship Air Races.
